Kill the Fly and Save the Child

With Shepard's House Fly Driver And Insect Exterminator.

NOT INJURIOUS TO PEOPLE

The National Government and Dr. Murray, a celebrated Physician and Superintendent of Health, of Washington, D. C., ENDORSES IT, viz.:

On August 29th 1 witnessed a demonstration of Shepard's Fly Driver, and found that in a confined space this preparation did kill flies. About 300 flies were liberated in a room 12x20 feet and fumes from a bottle of Shepard's Fly Driver were blown with the air of the room. Within the space of one-quarter of an hour the flies in the room had been killed by the fumes.

The fumes from this preparation produced no ill effects upon the four persons present in the room during the demonstration, and except for an odor of pine tar the fumes are not unpleasant.

(Signed) A. L. MURRAY, M. D., Superintendent of Health, Washington, D. C.

As one of the persons present when the above demonstration was conducted, I take pleasure in substantiating the information contained therein.

(Signed) C. H. POPENOE, (Insect Investigator), U. S. Dept. of Agriculture.
